

NeoTerra Systems Inc is pleased to announce the release of **neoNytro Enterprise v3.0** now with integrated support for **Tallysman Sprite TW-250 and TW-251** firmware.

Sprite TW-250

Enhance your fleet reporting by utilizing the Sprite TW-250 firmware and the MOTOTRBO™ Expansion Board to provide:

- Periodic time and distance reports based on moving and stopped status
- PTT ID
- Aggregated batch reporting
- Flexible radio I/O monitoring
- GPS/RSSI reports
- Time arrival & waypoints reporting
- Idle Time & odometer reporting

Sprite TW-251

The Sprite™ TW251 is an inexpensive Man Down/Lone Worker solution. By purchase factory installed MOTOTRBO™ Expansion Boards, the TW-251 provides **Intrinsically Safe** Man Down functionality.

- MAN-DOWN ALERT... By algorithmic evaluation of radio orientation and movement
- LONE WORKER ALERT... Continuously verification of worker health
- PRE-WARNING ALERT... Allows the worker to minimize false alarms
- HEARTBEAT MESSAGING... Positive confirmation of communications link
- GPS REPORT WITH PTT ID... Positive confirmation of location
- EASILY ENABLED / DISABLED... Ease of use

Please contact NeoTerra Systems to get details on affordable dealer demonstration packages of neoNytro Enterprise and Sprite TW-250 firmware.

We are also pleased to announce the release of **neoNytro Web**
A COMPANION PRODUCT
FOR
neoNytro Enterprise

neoNytro Web is an ASP .NET web based mapping solution available as an option to neoNytro Enterprise. neoNytro Web can be deployed in a dedicated manner for individual customers, or if the dealer wishes to provide a 'hosted' GPS solution as an Internet based solution. Access to neoNytro Web is via a secure login with username and password.

- ASP .Net 2.0 Application
- Bundled with ABYSS Web Server X1
- Choice of multiple map sources*
 - Google
 - Yahoo
 - Bing
 - Optional ESRI maps available from NeoTerra Systems
